

EPISTEMOS V6.1 — FINAL SYNTHESIS LOCK

*"Five lanes, three tiers, seven-plus-three-plus-seven, one Monday — one plan, three streams, three users — hybrid-SSM, parameter-connectome, Heavy-Thinking, vectorless-retrieval, brain-inspired, App-Store-native — and the floor never moves — and **attention is an interrupt, not a substrate.**"*

TL;DR — what V6.1 changes (and what it preserves)

V6.1 does **not** re-architect anything. It **sharpens** V6 in five places, each driven by something all six independent analyses landed on:

1. **Attention is reframed as an interrupt, not a substrate.** This is the deepest re-framing in the entire V5→V6→V6.1 arc. Static hybrid layer-ratios (Granite-4-H's
